

I'm found only in plant cells
I'm as green as can be
I make food for the plant
Using the Sun's energy

I'm strong and stiff
Getting through me is rough
I'm found only in plant cells
I'm what makes them so tough

I'm the fluid in the cell
That fills in the space
My main purpose is to
Hold the organelles in place
I'm full of holes
Flexible and thin

I control what gets out
As well as what comes in

I'm the brain of the cell
Or so they say
I regulate activities
From day to day

ANSWERS: chloroplast, cell wall, cytoplasm, cell membrane, nucleus
