GRADE 2 Project Overview

“The Giving Tree” Life Cycle

Project Essential Questions
- How do seasonal changes affect life cycles?
- How can humans impact life cycles of plants and animals?

PROJECT DESCRIPTION
In this arts integrated project, students will explore the story “The Giving Tree” and engage in some theatrical role-playing and creative writing exercises that analyze the life cycle of the main characters in the story. Students will then create their own life cycle story in the illustration style of Shel Silverstein. Their stories will explore the life cycle of a tree and how other life cycles depend upon the tree as it progresses through the four seasons. Digital media will be integrated into the storytelling of the students’ writing.

LEARNING TARGETS
“I Can…”
- Write a letter from the point of view of a character in “The Giving Tree” story.
- Create an original life cycle story that expresses how the life cycles depend upon one another.
- Use technology to digitally story-tell my life cycle story.

www.artsnowlearning.org
Units provide differentiated ideas and activities aligned to a sampling of standards. The units do not necessarily imply mastery of standards, but are intended to inspire and equip educators.

Produced through the U.S. Department of Education: Arts in Education—Model Development and Dissemination Grants Program Cherokee County (GA) School District and ArtsNow, Inc.
### DURATION: 2 weeks

Cycling through the Life Cycles  “The Giving Tree” Life Cycle  2nd Grade

- Media: refers to the tools and materials an artist uses
- Subject Matter: refers to the things that are represented in a work of art such as people, buildings and trees

TECHNOLOGY INTEGRATION
- Use of Little Bird Tales digital storytelling app: https://littlebirdtales.com/
- Video of “The Giving Tree” read aloud: https://www.youtube.com/watch?v=xODAQB6bJ0

ASSESSMENTS

</tr>
<tr>
<td>Teacher will observe students during the pre-writing process.</td>
<td></td>
</tr>
<tr>
<td>Teacher will observe students as they create their digital storybook.</td>
<td></td>
</tr>
</tbody>
</table>

MATERIALS

- “The Giving Tree” storybook
- Heavyweight paper
- Pencils
- Fine tip markers (black)-class set
- Little Bird Tales App: https://littlebirdtales.com/

Activating Strategy (5-10 min)

- Activate prior knowledge by referring back to article “Ten Species that are Evolving Due to the Changing Climate” and discuss how animals, as well as plants are living things and have life cycles that affect one another.
- Read “The Giving Tree” by Shel Silverstein.
- Discuss story and follow with question prompts:
  - What Life cycles are shown in the story?
  - Where do the seasonal changes occur in the story?
  - What are some choices the boy made that had an unhealthy effect on the tree’s life cycle? (write ideas on anchor chart)

Main Activity

PROCESS: After reading “The Giving Tree” students will write letters documenting better choices the boy could have made for the tree. Students will then create a digital storybook that represents the four seasons and relationships with living things.

PART 1: Respond to Literature

- The students will write a letter, assuming the role of the boy from story. The letter will be written to the tree in a monologue format with an “apology” or “request to forgive” theme.
- Suggested letter prompt: “Write a letter to the Tree, explaining what you could have done differently in your life cycle from a boy to a man that would have been healthier for the tree.”
- Students will share letters to class in monologue form.
PART 2: Brainstorm
- Brainstorm how a tree changes from season to season and list on anchor chart. See suggested questions:
  - Can you explain how the tree change from season to season?
  - How are humans/plants/other animals (living things) affected by the tree during each season?
  - Can you compare and contrast how a human versus a plant changes throughout the seasons?

PART 3: Create
- Teacher will explain directions and give expectations for creating 4 page storybook.
- Students will use their 4-Part Story Book Sheet (See Downloads) to begin creating their 4-page storybook. *Each page is for each life stage, therefore print 4 copies of this document.
- Teacher will facilitate as needed as students create their book, as well as formatively assess students during the process.

PART 4: Perform (Digital Recording):
- After students complete the storybook, they will assist the teacher in taking pictures from their book and adding them to their own digital story app (Little Bird Tales).
- Students will edit and revise information and pages on the app with the teacher’s assistance.
- Students will record their voices to “tell the story” on the app.
- Students can share their stories with their peers or other classes.

REFLECTION

Reflection Questions

- Students will discuss changes they can make to help other living animals and plants complete their full life cycles:
  - How do seasonal changes affect life cycles?
  - How can humans impact life cycles of plants and animals? Where in the book did this happen?

DIFFERENTIATION

Accelerated:
- Advanced students could make a list of ways the “child” could have gotten the things he needed from another source other than the tree.
- Advanced students could keep a double column diary for each event in the Giving Tree. At each stage, one side the students should record thoughts from the tree’s point of view, and in the other column, thoughts from the “child’s” point of view.

Remedial/EL Students:
- Guided Writing with below grade level/ELs
- Writing template for the guided writing
- Other Writing modifications:
  - Small group
  - Guided writing
  - Sentence starters
  - Graphic organizers
  - Word bank based on vocabulary
  - Paragraph frame
  - Modify length/writing assignment based on needs
Cycling through the Life Cycles

“The Giving Tree” Life Cycle

2nd Grade

ADDITIONAL RESOURCES

- “The Giving Tree” by Shel Silverstein
- Heavy weight drawing paper (11 X 8.5)
- Black fine tip waterproof markers
- iPads

APPENDIX

- “The Giving Tree” Life Cycle Rubric
- 4 Part Story sheet
